EDUCATION

University of Virginia — Charlottesville, VA
Master of Public Policy, Frank Batten School of Leadership and Public Policy — Expected 2028

University of Wisconsin–Madison — Madison, WI
Bachelor of Science in Economics; Minors in Computer Science and History — May 2026

- Awards: Dean's List (3 semesters)

EXPERIENCE

Neon.ai — Remote
Associate Engineer, Sales and Marketing — June 2026 – Present

- Design the public website (neon.ai), shaping how its AI products and technology are presented.
- Designed the BrainForge Coder Cards concept and prototype, then built the frontend at codercards.ai; Neon's engineering team built the backend.
- Work with sales and marketing on campaign creative, the website, and product reporting.
- Started as a summer internship, then continued as an independent contractor.

Fluno Center Hotel — Madison, WI
Front Desk Manager — May 2024 – Present

- Manage daily front-desk operations, room inventory, and guest flow for a high-volume hotel.
- Train new employees and resolve guest issues in real time under competing time pressure.

PROJECTS

Analysis of the Impact of Election Contributions on Voter Turnout (Senior Project)

- Analyzed large-scale geospatial datasets using Python and ArcGIS Pro, applying regression, time series forecasting, and clustering.
- With a team of four, wrote a report on election campaign contributions covering about 58 million FEC records, with an executive summary and Python replication files.

Econometrics with AI and Machine Learning

- Implemented random forests, regularized estimation, and nearest-neighbor models, and evaluated the bias-variance tradeoff with cross-validation.
- Built a final project that analyzed how temperature, altitude, and school selectivity relate to year-over-year improvement across more than 70,000 NCAA Division I distance performances.

Syllabus Analyzer Application

- Built a full-stack web app that turns syllabus text into assignment dates, grading rubrics, and reading schedules for a calendar.

LEADERSHIP & ACTIVITIES

University of Virginia Cross Country and Track — Charlottesville, VA
Athlete — 2026 – Present

University of Wisconsin Cross Country and Track — Madison, WI
Athlete and Team Captain — August 2022 – May 2026

- Balanced a 20-plus-hour weekly Division I training schedule with an economics curriculum.
- All-Big Ten and NCAA first-round qualifier in the 1500m (2024); part of three Big Ten first-place team finishes.

Student-Athlete Advisory Committee — Madison, WI
Member — August 2025 – May 2026

- Represented the cross-country programs to the athletic department and helped allocate the SAAC budget and plan community events.

SKILLS & INTERESTS

- Python, Java, JavaScript, React, CSS, HTML, Stata, R, Pandas, regression, machine learning, econometrics, Excel, ArcGIS Pro, Agentic Coding (Claude Code, Codex, Cursor), PowerPoint, Photoshop, Final Cut Pro, Framer
